

#### Overview:

- The Major Social Networks
- Anatomy of a Social Network
- Social Networks in Learning
- Platforms and Programs
- Learning Network Applications

## 1. The Major Social Networks

### The Progenitors

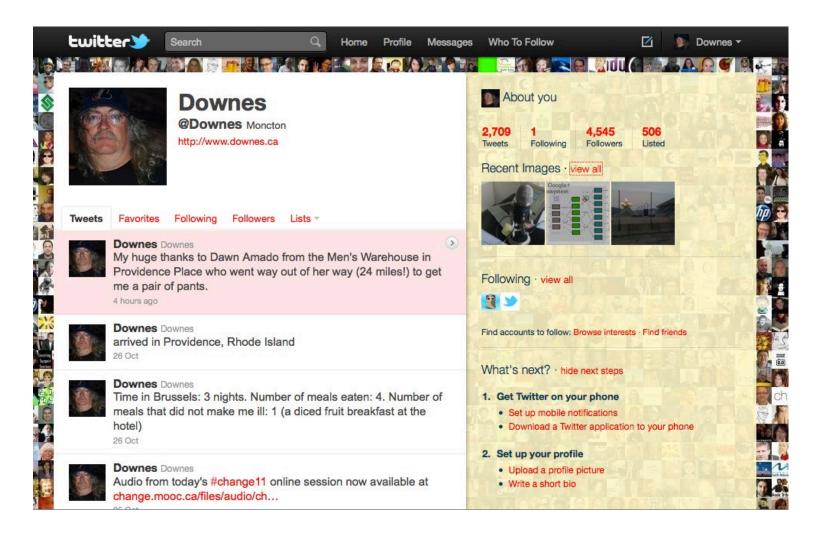

- Friendster <a href="http://www.friendster.com">http://www.friendster.com</a>
- MySpace <a href="http://www.livespace.com">http://www.livespace.com</a>
- Orkut <a href="http://www.orkut.com">http://www.orkut.com</a>

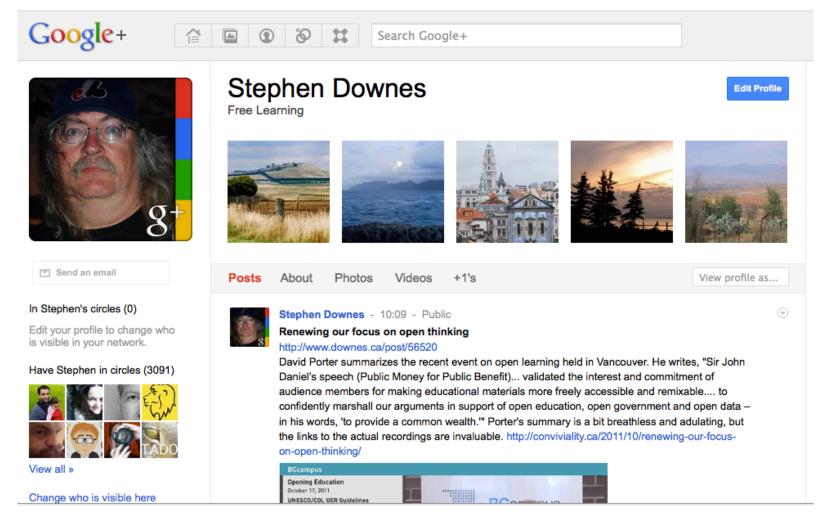

### Facebook

#### **Twitter**

## Google+

#### Some of the Others:

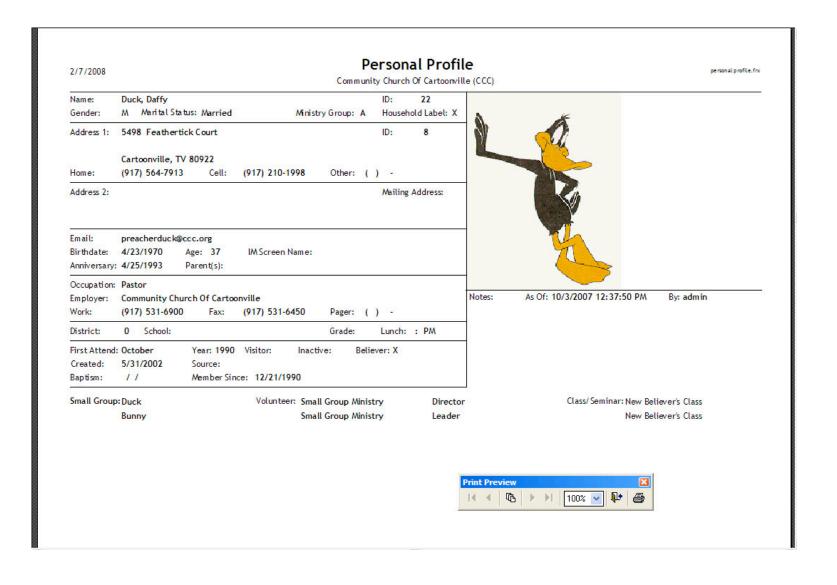

- Flickr <a href="http://www.flickr.com">http://www.flickr.com</a>
- LinkedIn <a href="http://www.linkedin.com">http://www.linkedin.com</a>
- YouTube <a href="http://www.youtube.com">http://www.youtube.com</a>

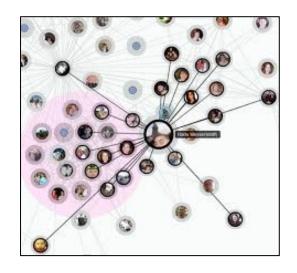

## 2. Anatomy of a Social Network

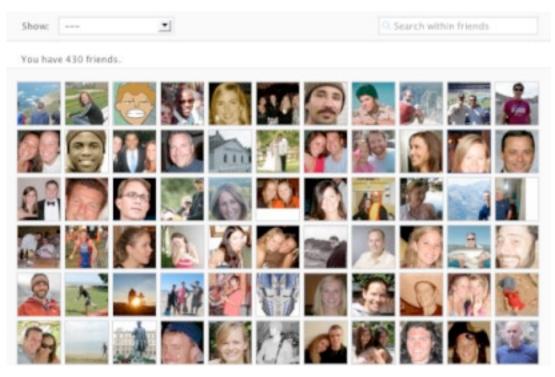

### Personal Profile

### The Graph

- Facebook 'friending' vs Twitter 'following' vs Google+ 'circling'
- Recommending friend suggestions or maybe just 'return the favour'

#### **Actions**

- Things to Do...
  - The Facebook 'poke'
  - Messaging
  - Checking In <a href="https://foursquare.com/">https://foursquare.com/</a>
  - Listening to <a href="http://www.last.fm/">http://www.last.fm/</a>
- The activity stream

### Likes and Dislikes

- The 'Like' button / 'Fan'
  - Inside the Graph Facebook
  - Outside the Graph Google's +1

- Extended graph would you 'recommend' this person, write them an endorsement?
- Tagging <a href="http://www.delicious.com">http://www.delicious.com</a>
  - Twitter hashtags
  - word clouds

http://www.wordle.net/

### Groups

- Explicit group formation:
  - Google Groups, Yahoo Groups
- Object-based group formation
  - Facebook 'causes', 'like', etc.
  - Events

## Sharing

- Media photo, video and audio uploads
- Artwork DeviantArt -<a href="http://www.deviantart.com/">http://www.deviantart.com/</a>
- Experiences
  - the Twitter hashtag again
- Places 4Square

### Reputation

- Klout <a href="http://www.klout.com">http://www.klout.com</a>
- HootSuite <a href="http://hootsuite.com/social-analytics">http://hootsuite.com/social-analytics</a>
- Social media key elements: PageRank, eBay Reputation, Amazon Reviews
- Achievement: 'become mayor', 'unlock badge'

# 3. Social Networks in Learning

### Some Benefits

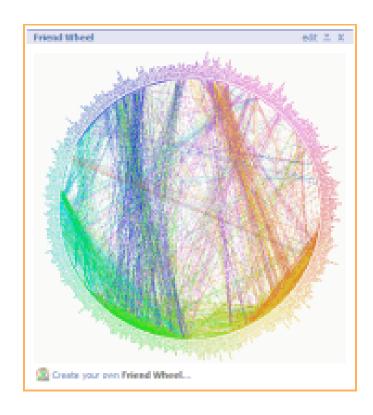

- It's free
- It cuts down on isolation
- It builds tolerance and understanding of diversity
- It amplifies passions
- It's more open, and education needs to be more open

George Couros, Connected Principals, Why Social Media Can and Is Changing Education

http://www.connectedprincipals.com/archives/3024

#### **Positives**

- Connection and access
- Increased awareness
- Publicity and advertising
- It's who you know

### Risks

- Privacy and security
  - putting your data out there
  - once online, always online
  - "you are not a customer, you are a product"

Douglas Rushkoff, You Are Not Facebook's Customer <a href="http://www.rushkoff.com/blog/2011/9/26/you-are-not-facebooks-customer.html">http://www.rushkoff.com/blog/2011/9/26/you-are-not-facebooks-customer.html</a>

#### Rumours and Innuendo

- Cyberbullying
- Quality control
  - Twitter rumours

### The Five intangibles

- Attention
- Attraction
- Affinity
- Audience
- Action

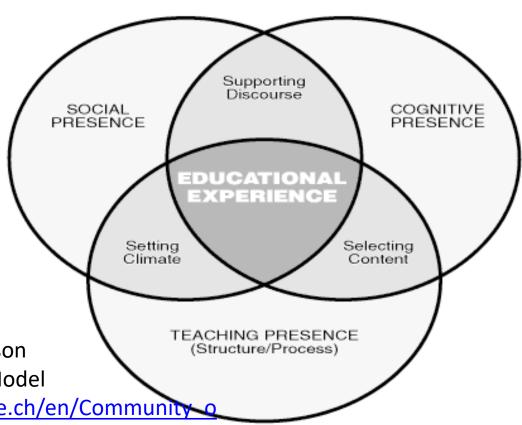

The Five Elements of Social Media
Jay Deragon & David Bullock with Irene Williams
<a href="http://www.relationship-economy.com/Five Elements of Social Media.pdf">http://www.relationship-economy.com/Five Elements of Social Media.pdf</a>

### Social Presence

Twitter – "What are you Doing?"

#### Community of Inquiry

Anderson, Archer, Garrison
Community of Inquiry Model

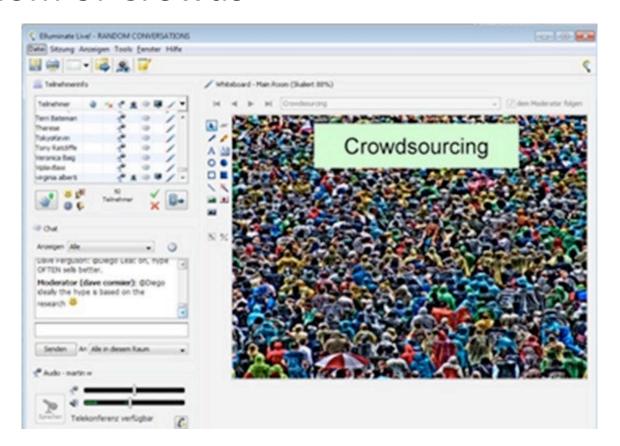

http://edutechwiki.unige.ch/en/Community\_o

<u>f inquiry model</u>

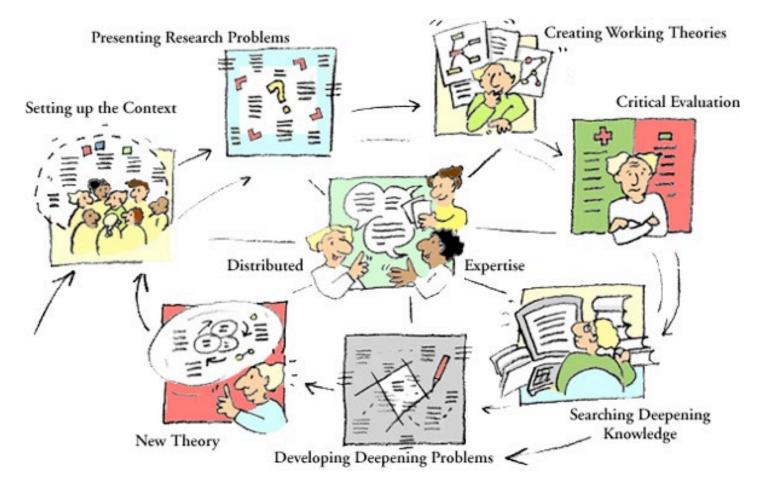

Communication Medium

### Crowdsourcing

- Wikipedia and such
- The Wisdom of Crowds

### Mapping SNs and Learning Theory

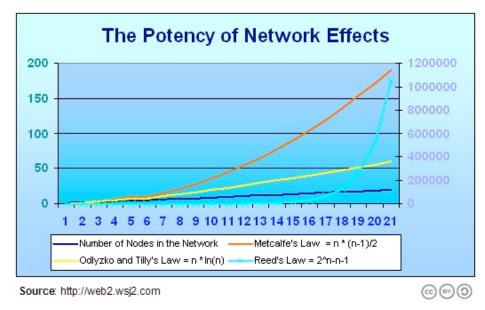

Centre for Research on Networked Learning and Knowledge Building, Development f Learning Theories

http://www.helsinki.fi/science/networkedlearning/eng/delete.html

### **Network Effects**

 "A virtual learning environment consisting solely of students and instructor, in contrast, cannot partake of these network effects."

Bryan Alexander, EDUCAUSE, Social Networking in Higher Education http://net.educause.edu/ir/library/pdf/PUB7202s.pdf

### Social Network Policies

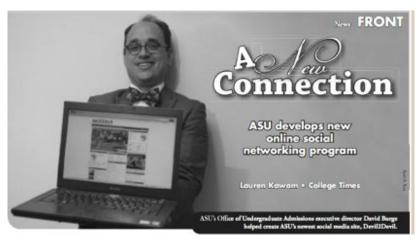

- Schools banning Facebook?
- "Discussions of privacy and copyright, and questions about creativity and appropriation, citizenship, and governance can become grounded in years of social media experience."
  - Alexander

#### Some SN Education Platforms

- Ning <a href="http://www.ning.com">http://www.ning.com</a>
- Elgg <a href="http://elgg.org/">http://elgg.org/</a>

#### ... and communities:

- Classroom 2.0 http://www.classroom20.com/
- Association for Social Media in Higher Education http://www.socialmediahighered.com/

# 4. Platforms and Programs

#### To Understand Platforms...

- Think of Mobile computing:
  - iPod, iPhone, iPad
  - Android, Windows Mobile, Blackberry
- Next, think of 'the App store'
  - eg., the Apple app store
- Apply the concept to a social network
  - inside the social network is an 'app store'
  - these apps access SN data and functionality

### Some Analogies

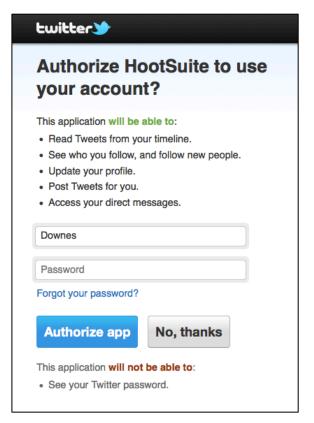

- Extensions in Firefox or Thunderbird
- Modules in Drupal or WordPress
- Google Apps in Chrome

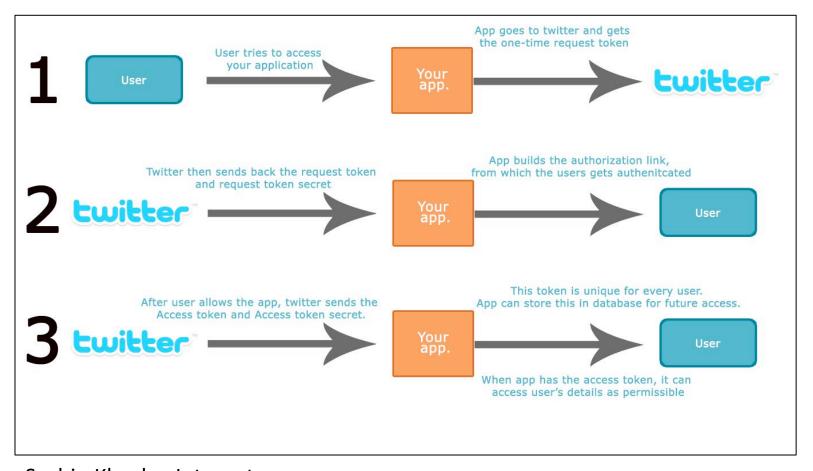

### Connecting

OAuth 2.0 <a href="http://oauth.net/2/">http://oauth.net/2/</a>

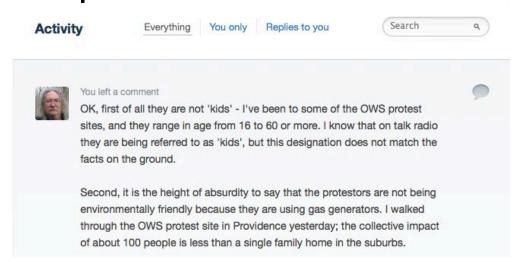

### **OAuth Permissions**

Sachin Khosla, Internet.com,
Upgrading Basic Twitter Authentication to OAuth with PHP
<a href="http://www.phpbuilder.com/columns/sachin">http://www.phpbuilder.com/columns/sachin</a> khosla062510.php3

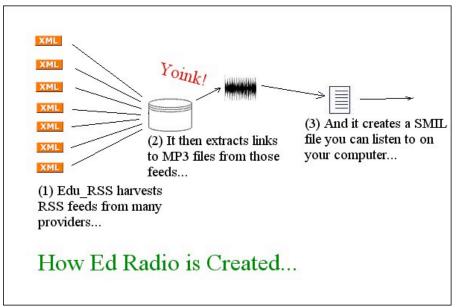

## Identity and Login

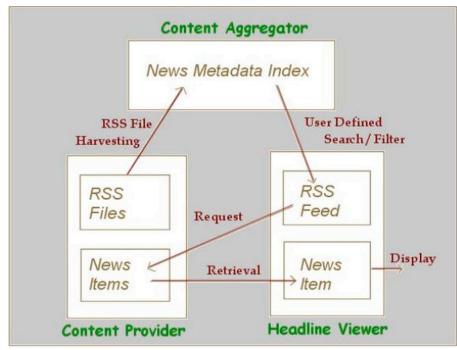

- Facebook Connect, Google SignOn, Twitter, OpenID
- Disqus Comments

Mark Aaron Murnahan, Why Disqus May Be The Best Social Network of 2011 <a href="http://www.awebguy.com/2011/01/why-disqus-may-be-the-best-social-network-of-2011/">http://www.awebguy.com/2011/01/why-disqus-may-be-the-best-social-network-of-2011/</a>

#### RSS and Atom

Stephen Downes, An Introduction to RSS for Educational Designers http://www.downes.ca/files/RSS Educ.htm

# 5. Learning Network Applications

#### Distributed SN Architectures

- Napster, Gnutella, BitTorrent
- OpenID Again
- Diaspora <a href="https://joindiaspora.com/">https://joindiaspora.com/</a>
  - Distributed Social Networking Protocol http://www.complang.org/dsnp/

### The Semantic Social Network

Recommender systems

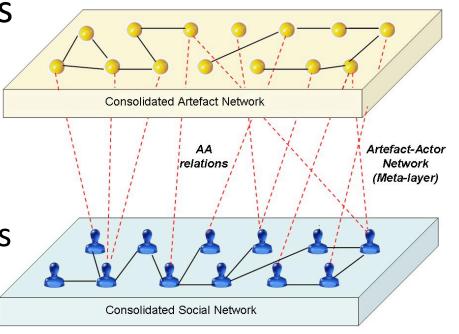

Metadata and metatags

Types of indices:

subject index

keyword index

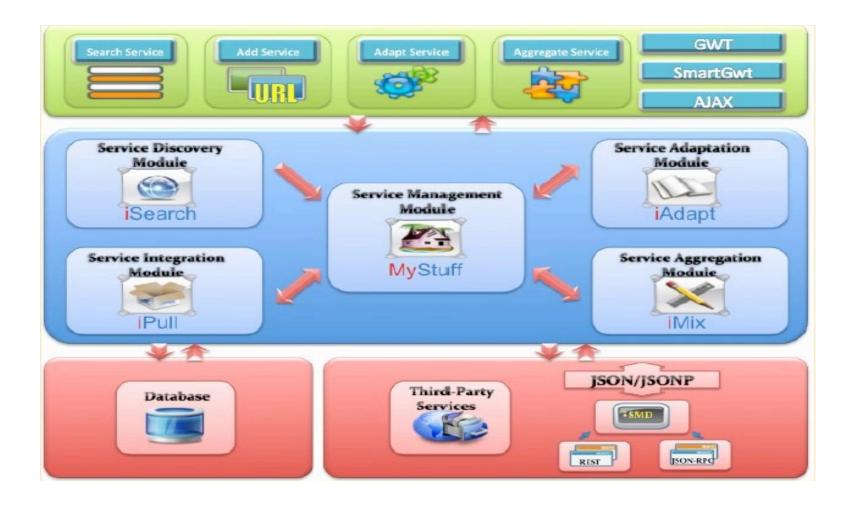

citations and link indices

Stephen Downes, Semantic Networks and Social Networks <a href="http://www.downes.ca/post/31624">http://www.downes.ca/post/31624</a>

Mahara, PLEs for Contemplation and Awareness: An Architectural Approach <a href="http://mahara.org/view/view.php?id=38342">http://mahara.org/view/view.php?id=38342</a>

## The Personal Learning Environment

Mohamed Amine Chatti, Model-Driven Mashup Personal Learning Environments <a href="http://mohamedaminechatti.blogspot.com/2009/10/model-driven-mashup-personal-learning.html">http://mohamedaminechatti.blogspot.com/2009/10/model-driven-mashup-personal-learning.html</a>

### **Network Functionality**

- Pattern Recognition
  - eg. from partial data eg. face recognition
  - Regression (prediction)
- Similarity Functions
  - network-based recommendation
- Clustering
- Self-Organizing Feature Map (SOFP)

### **Emergent Properties**

- The whole is not the sum of the parts
- Jarche: "Culture is an emergent property of people working together. Leadership is also an emergent property."

Harold Jarche, Leadership emerges from network culture <a href="http://www.jarche.com/2011/10/leadership-emerges-from-network-culture/">http://www.jarche.com/2011/10/leadership-emerges-from-network-culture/</a>

### **Groups and Networks**
