

Tools that Support Agency

Write, draw, design and create content and services to support learning

- Blogging, Websites & Publishing
- Drawing, Design and Photos
- Multimedia and Recording
- Repositories and Library
- Coding and Development

Example: [Kaltura](#) provides storage, management and access to video resources.

Assessment: Although not specifically designed for educational applications, vendors may measure their use in education and how a video library impacts access to learning

Tools that Support Interactivity

Tools that facilitate the exchange of content and data across platforms and institutions

- Feed Readers
- Messaging, Email, Social Media
- Collaboration and Sharing
- Teams and Classrooms
- Labs and Simulations

Example: [Scratch](#) is a high-level block-based visual programming language for children 8–16 as an educational tool for programming

Assessment: Interactivity can be measured by engagement, inclusivity, and efficiency in achieving learning outcomes

Tools that Build Community

Organize activities around a share event or theme, bring groups and cohorts together through learning activities

- Event Management Tools
- Discussion and Conferencing
- Engagement Tools
- Online Communities
- LMSs and MOOCs

Example: [Badgr](#) offers technology and platforms for digital credentials awarded for successful learning outcomes

Assessment: Can be assessed for use by platforms and institutions, impact on alternative learning paths, and efficiency in helping employment outcomes
